Designed with a focus on cost-efficiency, safety, ease of maintenance, system compatibility, and environmental sustainability, it provides a localized and high ...

It is equipped with all the necessary components, including batteries, inverters, and control systems, to ensure seamless energy storage and distribution. The ...

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage ...

It meets the application needs of regional power grid peak shaving, frequency regulation, voltage regulation, emergency response, new ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

We offer reliable Battery Energy Storage Systems (BESS), equipped with our cybersecure, in-house Energy Management System (EMS), ...

The Modular ESS series consists of energy storage with a high energy density and many cycles (8000) placed in cabinets up to 10MWh.
