THE Ministry of Electric Power (MoEP) has announced plans to install a solar power system with a capacity of up to 14 megawatts in the Thilawa Special Economic Zone (SEZ) in Thanlyin Township, ...

This project will install 14MW floating solar power system on three un-used water ponds in Vientiane. Lower temperature on water ponds enables more efficient power generation than on land.

Solar-based energy is becoming one of the most promising sources for producing power for residential, commercial, and industrial applications. Energy production ...

Hamedan-SST Solar Project is a 14MW solar PV power project. It is located in Hamadan, Iran.

Here we provide a global inventory of commercial-, industrial- and utility-scale PV installations (that is, PV generating stations in excess of 10 kilowatts nameplate capacity) by using a...

Luapula Province Minister, Nason Musonda, claims load shedding has come to an end in the province following the successful supply of 14 ...

Massive arrays can now provide tens of megawatts of solar power for companies that can afford the land and the expense. As a handful of players ...

Estimates the energy production and cost of energy of grid-connected photovoltaic (PV) energy systems throughout the world. It allows homeowners, small building owners, installers and manufacturers to ...

Solar offers factory packaged gas turbine-driven generator sets from 1-23 MW. These generator sets include industrial generators that are in compliance with ...
