-----

Together, these enclosures deliver 15 kW continuous (20 kW peak), operating silently and reliably even in harsh climates. Designed for telecom, data edge, industrial, and government applications, the ...

The commercial and industrial (C& I) sector is rapidly adopting battery energy storage, but the path from concept to commissioning is fraught with complexity. For engineering, procurement, and construction ...

For region-specific product details and variations in specifications, please download the local leaflet or visit the local website.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency ...

It offers seamless integration with various mainstream battery brands and technologies, providing flexibility and reliability. Ideal for projects requiring efficient power management and space-saving ...

AZE's outdoor battery system is tailored for small to medium-sized commercial and industrial (C& I) energy storage applications. Its modular design not only ...

We provide flexible solutions via modular building blocks using either containerized or building type solutions, which incorporate all the necessary cooling, controls and safety features.

Our new 5 MW / 10 MWh Battery Energy Storage System is now live, engineered from the ground up in Lisburn. Our modular, off-site construction ensures a faster and smoother path to commissioning.

Battery swapping station external energy storage cabinet grid-connected type Battery Swapping Station (BSS) proposes an alternative way of refueling Electric Vehicles (EVs) that can lead towards a ...
