As the UAE accelerates its transition to sustainable energy, heavy industries are increasingly adopting advanced energy storage cabinets to reduce costs and improve operational efficiency.

Easily upgradable from 500kW to 1MW of energy storage, storing up to 3.8MWh of energy, enough to power an average 3,600 homes for one hour.

Modular Battery Racks Our range is complemented by the production and global distribution of plastic-coated steel trays and plastic trays for traction batteries.

Specialized for high-power discharge applications, available in 2V/12V classes with 500W-3200W capacity range, ensuring dependable performance in critical backup systems.

The BESS solution delivers utility-grade energy storage for commercial and industrial applications. The system features modular architecture supporting 250kW to 500kW continuous power ...

The RS485 certified Outdoor ESS Cabinet has a robust and rugged ...

This solution uses 5 sets of modular outdoor cabinet energy storage system, which supports up to 15 units in parallel. It's an ideal choice for peak-shaving and valley-filling in zero-carbon parks ...

1075kWh battery storage with 500 kW rated AC output, ideal for commercial and industrial loads.
