Introducing our 50kW / 100kWh high-voltage outdoor energy storage solution designed for commercial and industrial (C& I) applications.

Make up by 50kW, 125kW and 215kW energy storage power modules, support on grid mode, air-cooled battery or liquid-cooled battery optional. This series is specially designed to achieve peak shaving ...

This 30/50kW all-in-one industrial energy storage system combines lithium batteries, inverter, and intelligent energy management in a single unit, offering a flexible solution for medium and large ...

Your Energy Guardian Anytime, Anywhere PowerCore 50kW/100kWh Energy Storage System, engineered for seamless, solar-driven resilience across homes, farms and industrial sites.

Once the system is installed, solar energy is a free source of power, helping you save on long-term operational costs. Additionally, the system includes battery storage technology, ensuring a ...

ANE bidirectional DC/DC converter module adopts the latest optimized hardware design, with advanced control algorithms, supplemented by advanced ...

ANE 50kw energy storage converter module adopts modular design, with off ...

Maxwell Module provides 50 kW bi-directional power module which has high-power components and is designed for easy installation and use. Ideal for energy ...
