Better light trapping and current collection to improve module power output and reliability. Minimizes the chance of degradation caused by PID phenomena through optimization of cell production technology ...

Electrical Specifications (Integrated power) ... Electrical characteristics with different rear power gain (reference to 635W)

Dual-sided power generation gain increases with backside exposure to light, significantly reducing LCOE. 2024 Jinko Solar Co., Ltd. All rights reserved.

Delivers Reliable Performance Over Time Full-automatic facility and industry-leading technology Best-in-class durability and reliability One of the largest fully integrated & comprehensive Solar PV ...

Detailed profile including pictures, certification details and manufacturer PDF.

Monocrystalline solar panels have higher efficiency and durability. Also, the Jinko 625W solar panel is a premium quality module with dimensions of 2465x1134x35 mm and an impressive module efficiency ...

Curve C current-Voltage (625W) BNPI: Irradiance: front 1000W/m², rear 135W/m², Cell Temperature 25°C, AM=1.5 Voltage (V) Power-Voltage (625W)

Are Sunpal's HJT BiMAX6N solar panels suitable for commercial installations? Yes, Sunpal's HJT BiMAX6N solar panels are well-suited for commercial installations, offering high power outputs ...

Note: For specific dimensions and tolerance ranges, please refer to the corresponding detailed module drawings.
