The development of a pump storage scheme (PSP) on existing KESH generation assets presents an opportunity for KESH to provide on-peak and balancing energy in Albania, Kosovo\* and the region.

Following the successful implementation and start of commercial operations of the Banja and Moglicë hydropower plants in the Devoll River valley in Albania, Statkraft is further looking into ...

GOPA Tech undertook a comprehensive power system study for the PS Moglice Extension in Albania, focusing on the feasibility of a 1200 MW pump storage hydro plant.

Norwegian renewable energy company Statkraft has completed a feasibility study for a proposed pumped-storage hydropower plant in Albania, which could have a capacity of up to 1,620 ...

Pump Storage Plant (PSP) on existing KESH generation assets. The Project consists of using the already installed 500MW capacity at Fierza HPP and the 600MW of installed capacity at Koman HPP ...

To access additional data, including an interactive map of global hydroelectric power plants, a downloadable dataset, and summary data, please visit the Global Hydropower Tracker on the Global ...

For this reason, a pumped storage scheme is expected to be developed soon that transfers water between the Fierza and Koman reservoirs, storing energy during low demand and ...

Statkraft intends to expand its hydropower cascade on the Devoll river in southern Albania with pumped storage system Moglica. The capacity is estimated at 800 MW to 1.6 GW. The ...

To this aim, this paper deals with the optimization of the sizing and operation of a PHS plant that interacts with a power generation system consisting of different power production ...
