-----

November 24, 2025 - Enel Chile, through its subsidiary Enel Green Power Chile, has initiated construction of the Las Salinas battery energy storage system ...

Enel Green Power Chile confirm el comienzo de la construcción del sistema BESS Las Salinas, ubicado aproximadamente a 60 kilómetros de la ...

Spain-based developer Acciona Energia will add a gigawatt-hour-scale battery energy storage system (BESS) at its 238MWp Malgarida solar PV ...

The system combines a 3 MWp solar photovoltaic (PV) plant with a 15 MWh Battery Energy Storage System (BESS), enabling clean power generation and advanced energy management capabilities.

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in María Elena commune, in the Antofagasta region.

En Chile, la compañía cuenta con tres proyectos solares de gran escala en operación: Javiera en Atacama, Quilapilín en la Región ...

JV between EDF and developer AME has begun construction of large-scale battery and solar photovoltaic (PV) projects in Chile.

CJR Renewables is proud to share the success of BESS del Desierto, which was built by the company in 2024/2025 with a peak of approximately 200 ...

The facility will be coupled with a modular BESS with storage capacity of about 3,010 MWh, providing roughly seven hours of autonomy. Both the solar farm and the battery will interact ...
