Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

Perfect for long-term rural microgrid systems, solar-powered telecom relay stations, or infrastructure camps. With 60kW solar input and 215kWh storage in a 20ft container, it supports continuous multi ...

We design a customized off-grid container solution tailored to your requirements. Our expert team constructs the container, integrating cutting-edge solar technology. We deliver a fully operational ...

Under Dr. Qu's leadership, we have grown into one of the world's largest solar photovoltaic products and energy solutions providers, as well as one of the ...

Hybrid performance with a generator or an Energy Storage System makes the ZSC mobile solar containers as part of a microgrid solution. With paralleling capabilities with other energy sources, ...

By integrating solar, battery storage and Digital Twin technology, this project demonstrates how Indigenous-led innovation can deliver resilient and renewable power systems ...

Improve access to funding and provide support for clean energy initiatives in Indigenous, rural and remote communities across Canada.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.
