-----

The journey from Drift PRO to PRO Gen2 illustrates Fogstar's drive to listen, refine, and enhance through real-world feedback. With Gen2, users receive a mature, ...

We're an electric only house, and use a rather staggering amount of energy as we have two EVs. We average 60 - 70 kWh / day. I feel we'd get a lot of mileage out of some large battery storage, and so I ...

The Drift delivered top-tier hardware at a fraction of the going rate, and it quickly became a bit of an off-grid cult hero. But tech never stands still, ...

Both the Fogstar Drift and Fogstar Drift PRO embody such dependability and quality. But how do these flagship batteries differ, and what unique features do they offer?

In this Fogstar batteries review, we'll explore the specifications, compatibility, warranty offerings, and real-world user experiences of Fogstar batteries in residential solar PV systems.

So, I finally shelled out nearly \$400 on my first ever lithium battery !! Replacing the AGM's will hopefully be a game changer!!...more Audio tracks for some languages were automatically...

I'm debating between a 628ah drift or the same size drift eco. How vital are people finding the Bluetooth/app usage? Is there a screen that I can use on the DriftEco to display similar things, or ...

Had a problem with a new battery. Fogstar responded quickly from my email and replaced the battery. Very happy with their speedy response to resolve my issue!

We've just fitted a 280ah Phil and it seems to be working ok! The price is really reasonable, but the wait was at least 2 months. The Fogstar 280ah on its side fitted in the space of ...
