500KW/1200KWH integrated solar battery storage system container for commercial & industrial use. All-in-one design, easy to deploy, safe BMS & thermal control.

Experience the future of sustainable energy with our Solar Container Energy Storage System. Designed for solar power plants, this innovative solution ...

Engineered for reliability and scalability, our all-in-one containerized solution integrates a 500kW hybrid inverter system with 1.2MWh high-performance lithium battery storage.

Built with high-energy-density battery cells and a compact all-in-one containerized architecture, it delivers reliable, efficient, and scalable energy storage for a wide range of scenarios.

A high-performance, all-in-one, containerized battery energy storage system developed by Mate Solar, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and resilience.

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC 3 phase ...

1MW/2MWh Energy Storage Container is a turnkey solution integrating 1MW bi-directional PCS and 2MWh LiFePO4 battery systems in a standardized shipping container, designed for utility-scale and ...

Product Overview The 500kW / 1000kWh Containerized Energy Storage System is a high-performance, rugged power solution for industrial and utility applications.

Industrial-grade 500kW solar + storage solution with 1104kWh high-voltage lithium battery, 720W bifacial Topcon modules, ATS switching, and intelligent EMS ...
