Discover HiVO! BMS for High Voltage Battery. Developed to optimize the performance and safety of the most powerful batteries.

A high-voltage Battery Management System (BMS) is an intelligent electronic control unit designed to monitor, protect, and optimize the performance of battery packs typically operating within ...

With the increased adoption of Lithium ion battery technology in automobiles and energy storage, the design and integration of a good BMS for ...

The Nuvation Energy High-Voltage BMS is a utility-grade battery management system for commercial, industrial and grid-attached energy storage systems.

Designed and rigorously tested for high-voltage batteries reaching up to 1200 V, our HV BMS offers a complete and ISO 26262 ASIL-D compliant system solution, ...

This paper examines trends that are changing the structure of HEV/EV powertrains and how the technologies within battery management systems (BMS) are shifting to support the requirements of ...
