In this video, we'll show you *how to test and verify Longi Himo-5 & Himo-6 solar panels* using the latest *barcode and QR code scanning system**.

LONGi supplies its reliable, high-performance solar modules to 6 continents and 85 countries and regions to power the world toward a low carbon future. HIBC (Hybrid Interdigitated Back-Contact) ...

LONGi has announced that its Hi-MO 4m all black PV module has obtained the highest (Class 1) fire safety certification for the Italian market, having successfully completed ...

Let's dissect LONGi's photovoltaic grading system through the lens of a solar installer who once confused B-grade panels with abstract art. The differences between A and B class panels extend ...

The grading system goes A for the best, B for visually defective panels but meet performance benchmarks, C for visually and performatively ...

Types of LONGi Hi-MO6 Solar Panels The LONGi Hi-MO6 solar panel series represents one of the most advanced generations of photovoltaic technology, engineered to maximize energy ...

The company now has a total of 10 manufacturing plants producing ...

Silicon-based modules from companies like LONGi, JA Solar, REC, and Canadian Solar contain no mercury and are RoHS-compliant. Meanwhile, ...

Back-contact solar panels are changing the game. In this guide, we compare Hybrid Passivated Back Contact (HPBC) and All Back Contact (ABC) ...
