There are no bases in the Cooling Towers region. However, since it is a very small region, you can easily make your way back to the safety of the ...

The present-day tele-space is incomplete without the base stations as these constitute an important part of the modern-day scheme of wireless ...

A macrocell is a cellular base station that sends and receives radio signals through large towers and antennas. Cell towers range in height from 50 ...

A base transceiver station (BTS) or a baseband unit (BBU) is a piece of equipment that facilitates wireless communication between user equipment (UE) and a network. UEs are devices like mobile phones (handsets), WLL phones, computers with wireless Internet connectivity, or antennas mounted on buildings or telecommunication towers. The network can be that of any of the wireless communication technologies like GSM, CDMA, wireless local loop, Wi-Fi, WiMAX or other wide area network (WAN) techn...
