JW-D72N Series (Multi-Busbar) Jolywood N-type High Efficiency Monocrystalline Silicon Bifacial / White Glazed Double Glass Module

The module uses state-of-the-art bifacial technology and generates power from both the front and back panels. This allows it to generate up to 30% more energy than conventional modules--even from ...

View and Download Jolywood JW-D60N installation manual online. N-Type Mono-Crystalline Double Glass Module. JW-D60N control unit pdf manual download.

Thanks to their dual-sided design, these panels harness both direct and reflected sunlight, boosting energy production by up to 30%. With a high conversion efficiency of 22%, they perform well under ...

Jolywood modules are renowned for their high efficiency, reliability, and modern design. The firm focuses in n-type dual-sided modules, which provide ...

Jolywood is a leading manufacturer in the photovoltaic industry, specializing in the development and production of highly efficient bifacial N-type TOPOn solar modules.

Jolywood, founded in 2008, is an innovative enterprise that debuted on the stock exchange in 2014. The manufacturer focuses on the R& D and production of photovoltaic auxiliary materials, solar cells and ...

Membrane-adhesive integrated structure (FFC//PET//FFC) with double-side fluorine coated. Applying plasma chemical modification and fluoro-Silanition surface grafting techniques.

The bifacial solar modules from Jolywood combine high-performance N-type TOPCon cell technology with a robust glass-glass construction. Thanks to the active rear side, not only direct sunlight but also ...
