Shanghai,China- June 14th - On June 14th, at the highly anticipated 2024 SNEC Expo in Shanghai, LONGi Green Energy Technology Co., Ltd. (hereinafter referred to as "LONGi") ...

Daily Power Generation of LONGi Photovoltaic Panels: Key Factors and Real-World Performance

As one of the most sought-after solar panels in 2025, this comprehensive guide examines everything you need to know about the LONGi 540W, from technical specifications ...

LONGi M6 silicon wafer technology enhances the power of the modules, with front side power up to 450W. The results are BOS savings and the lowest LCOE for the photovoltaic project.

Chinese module maker Longi has released the results of a six-month test of its back-contact solar modules deployed in an offshore ...

Installing Longi's latest Hi-MO X10 back-contact solar panels on a 10,000 m² rooftop could produce 189,000 kWh more power annually ...

• Based on M10-182mm wafer, best choice for ultra-large power plants echnology delivers superior module effic • Excellent outdoor power generation performance • High module quality ...
