---

Certified by the US National Renewable Energy Laboratory (NREL), LONGi's large-area (260.9 cm<sup>2</sup>;) crystalline silicon-perovskite two-terminal tandem solar cell achieved a ...

LONGi today announces that the company has broken another world-record for silicon solar cell efficiency only 4 months after it last set a world-record in this area.

Chinese solar module manufacturer Longi has revealed it achieved a power conversion efficiency of 34.85% for a two-terminal ...

Longi Green Energy Technology Co Ltd, a leading enterprise in the photovoltaic industry in China, broke the world record on Friday ...

Certified by the US National Renewable Energy Laboratory (NREL), LONGi's self-developed large-area (260.9 cm<sup>2</sup>;) crystalline silicon ...

At the recent SNEC 2025 solar expo held June 11-13 in Shanghai, solar powerhouse LONGi made waves with not one, but two ...

According to authoritative certification by the European Solar Test Installation (ESTI), one of the world's leading photovoltaic (PV) calibration laboratories, this cell's photovoltaic conversion ...

The company's panel is the second-most conversion-efficient solar cell in the world, and is 1.7% more conversion-efficient than the ...

The breakthroughs include a 33 percent conversion efficiency for a commercial-size silicon-perovskite tandem solar cell and 26 percent efficiency for a crystalline silicon module.
