Please note: Aircraft radio equipment require approval from MACRA prior to use. Besides, there is an MOU between MACRA and DCA where DCA will not issue an Aircraft licence prior to the user ...

Malawi became eligible for the MCC Compact assistance in December 2007. A constraints analysis was conducted thereafter and a final report completed in May 2008.

The draft specifies that all approved devices must bear a certification label with the MACRA certification mark, device model, and approval identifier. Labels need to follow specified color and design ...

Supercapacitors offer a rare triple win: immediate impact, long-term sustainability, and compatibility with future tech upgrades. The question isn't whether to adopt - it's how quickly Malawi can scale ...

IN EXERCISE of the powers conferred by section 200 of the Communications Act, I, GOSPEL KAZAKO, Minister of Information and Digitalization, on recommendation of the Malawi Communications ...

With the relentless global expansion of 5G networks and the increasing demand for data, communication base stations face unprecedented challenges in ensuring uninterrupted power

The new hybrid storage system developed in the HyFlow project combines a high-power vanadium redox flow battery and a green supercapacitor to flexibly balance out the demand for electricity and ...

REGULATIONS 1 2 3 ... 5 Next »

These new rules aim to set up clear guidelines for approving electronic equipment in Malawi, including stricter labeling requirements for type-approved devices.
