Compact 100Kwh Energy Storage Cabinet with 10-400kWh capacity and IP54 protection, ideal for industrial and commercial applications.

This LiFePO4 battery storage system features innovative liquid thermal management technology that ensures optimal operating temperatures and extended battery lifespan. With triple-level fire ...

Maximize power reliability & savings with our 125KW/261KWH Liquid-Cooled Battery Cabinet. Featuring superior cooling efficiency for extended 10-year lifespan, it enables critical equipment UPS protection ...

ESS Residential Energy Storage Battery Cabinet 400v CAN wind solar panel battery storage IP54

Scalable outdoor energy storage cabinet is designed for customer application with power and capacity range requirements of 125kW/215Wh. The system can ...

Equipped with rack-mounted modular PCS, which supports multi-machine parallel connection and has good scalability; the number of PCS modules and total battery power can be selected according to ...

The battery PACK, battery management system (BMS), energy management system (EMS), power conversion system (PCS), temperature control system (TCS) and fire protection system (FPS) are ...

We offer comprehensive energy storage cabinet solutions tailored to your specific requirements. Contact us via email or WhatsApp for inquiries and personalized assistance.

Our 200KWh outdoor cabinet energy storage system features a battery pack system enclosure with triple fire protection. With independent relay protection and battery-level thermal monitoring, you can ...
