In 2011, Norway was the eighth largest crude oil exporter in the world (at 78 Mt), and the 9th largest exporter of refined oil (at 86 Mt). It was also the world's third largest natural gas exporter (at 99 bcm), having significant gas reserves in the North Sea. Norway also possesses some of the world's largest potentially exploitable coal reserves (located under the Norwegian continental shelf) on earth. More recently (2017), the Norwegia...

The Norwegian Water Resources and Energy Directorate (NVE) is a directorate under the Ministry of Petroleum and Energy.

Norway energy management

Norway's gigantic sovereign wealth fund generated a 15% annual return last year, powered by strong gains in global equity markets, as well as major positions in renewables infrastructure.
