Can I Touch A Solar Panel? How Likely Is A Shock from A Solar Panel? What Happens If I Touch A Solar Panel? How Do I Touch Solar Panels Without Getting Shocked? Getting shocked by a solar panel is a very rare event. However, even a minor shock can kill if it hits the wrong way. Workers have died from electric shock when installing solar panels. However, falls from the roof are more common, as are power tools, extension cords, ladders, and lifting things the wrong way. Shocks from a solar PV array are a low-... See more on solvoltaics
