Solar power generation and sensor data for two power plants.

The project can thus help solve the problem of storing surplus wind or solar power. From the gas grid, the energy can be fed back into the power grid at any time, if desired.

Electricity generation from solar, measured in terawatt-hours.

Welcome to Qudi Core's documentation!

Google's service, offered free of charge, instantly translates words, phrases, and web pages between English and over 100 other languages.
