Hello all. I want to send dataref from my simulink model to xplane. I can send by using function sendDref Nasa's XplaneConnect library but in Matlab. I cannot send in Simulink. I can send ...

Hi everyone. I have basically created some Simulink models that allow communication between Simulink and X-Plane 10 (X-Plane 10, not 9!) Simply, it decodes the UDP data packets ...

How to get started with Simulink for microgrid design? In this video, we present two examples that will help you better understand several modeling techniques that you can use for ...

Hello everyone, I have a Pixhawk PX4 6X and have installed HITL firmware on it through the official Pixhawk MATLAB add-on. The reason I'm doing this is to use hardware-in-the-loop (HITL) ...

This work presents a library of microgrid (MG) component models integrated in a complete university campus MG model in the Simulink/MATLAB environment. The model allows simulations ...

This paper proposes a model to study operation modes of a microgrid consisting of a battery energy storage system (BESS), a solar power system, a diesel generator, a main grid and ...

Here, a detailed note on developing a Microgrid model in MATLAB Simulink is provided with a sample Simulink framework. Considering the areas of Microgrid application, compelling and trending project ...

Hello, I want to get data from X-plane use a plugin. I have composed an plugin which takes location information of the aircraft (local\_x,local\_y ..) but I want to send the information to ...

Anyone else having issues with stutters with Simlink and X-Plane ? I noticed this for 3-4 days ago. And when I was troubleshooting this I noticed Simlink was the reason for the lag spikes.
