Statkraft built the first grid-scale battery in Ireland at Kilathmoy. This is an 11MW, 5.6MWh lithium-ion battery which commenced operation in April 2020. The ...

Helping to minimize energy costs, it delivers standard conformity, scalable configuration, and peace of mind in a fully self-contained solution. The battery ...

We find that battery energy storage can become one of the cornerstones of the energy storage portfolio in Ireland and also one of the few options which can enable the Irish electricity ...

Energy storage systems are vital to Ireland's renewable ambitions. Learn how batteries, long-duration storage and grid upgrades will help deliver clean power

We represent Ireland and Northern Ireland's energy storage industry bringing together exciting new technologies and innovations that will help decarbonise ...

We commissioned our first battery energy storage system at our Aghada generating site in Co Cork in 2022, capable of generating 19MW. We added a second battery on the same site in 2024 with an ...

Developers have installed batteries in Ireland capable of storing up to 400 megawatts (MW) of electricity, equivalent to an average power station, but they are used only as a backstop to ...

TSG Ireland delivers advanced grid-connected battery systems that support Ireland's transition to a low-carbon, electricity-led future. Battery energy storage ...

I welcome this update to increase the value and efficient utilisation of these battery units, supporting the transition to a low-carbon future by making the grid more flexible, efficient, and ...
