BX Inverter Mounting Assembly includes all parts needed (Chassis, XR10 Rail, and hardware) to create a mounting platform for an inverter (with up to a 4" base).

In a 1000W solar inverter system, the transformer base ensures safe, efficient, and compatible AC power output. While some inverters are transformerless, others rely on robust ...

The SOLECTRIA®; XGI 1500 PowerRacks provide the most robust, scalable building-block for state-of-the-art multi-MW solar plants.

The String Inverter Mounting Kit creates a mounting platform for inverters on top ...

Strong, light, and ready for anything. The IronRidge BX System is designed to meet the needs of commercial solar - navigating complex roof layouts, while also handling the most extreme ...

There are some inverters that do not like to be grounded as required and are intended to be isolated rather than installed. Installation manual will give details.

We design and manufactures structural hardware for residential and commercial solar systems.

Made of a glass reinforced composite, the BX Chassis is engineered for extreme structural loading, yet is also shaped to be roof-friendly and easy to install. ...

IronRidge BX-CMA-SI-M1 String Inverter Mounting Assembly Kit includes Chassis, Rail and Mounts with Hardware
