---

The Haitian Government plans to expand electricity access through solar photovoltaic-based mini grids with storage, micro-grids, and stand-alone solar systems, under ...

The IGR HA-G1060 is expected to provide 1.4MWp of additional solar photovoltaic (PV) capacity serving the Parc Industriel de Caracol (PIC) ...

This project marks a significant milestone in Haiti's quest for energy independence. With its focus on sustainability, cost reduction, and ...

The Project will provide affordable and reliable 24/7 access to modern energy services in communities previously identified through ...

Thanks to its scale and integrated nature, the Caracol solar power plant is a national benchmark for the development of large-capacity grid-connected solar projects. It ...

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Haiti with our comprehensive online database.

The Okra Solar Project is estimated to bring affordable energy to 300 Haitian households, with an overall capacity of 65 kWp.

Explore how the new solar power plant installed in Haiti is driving green energy solutions across the Caribbean.

Amid ongoing humanitarian and security challenges in Haiti, the project aims to support the installation of 10 MWp of solar PV and 20 MWh of storage. It will provide reliable ...
