The SolarEdge Home Battery 400V must be installed in a location where the ambient temperature falls between +32°F to +104°F for no less than 95% of the warranty period and between +14°F to +122°F ...

The SolarEdge 400V 10kWh Home Battery is designed for residential solar energy storage, providing reliable performance and efficient integration with SolarEdge ...

The SolarEdge BAT-10K1P Home Battery is a high-voltage 400V lithium-ion energy storage solution designed for seamless integration with SolarEdge Home Hub and Energy Hub inverters.

High voltage, DC-coupled storage solution for 1ph systems. Optimised to integrate with existing and new installations using the Home Hub 1ph or Home-Wave 1ph ...

This DC-coupled battery offers superior overall system efficiency - working with multiple inverters to produce more energy and enable larger installs. Installation ...

The SolarEdge Home Battery 400V sets new standards for system efficiency, safety, and ease of use - making it an essential part of any SolarEdge residential installation.

Engineered for efficiency, safety, and seamless monitoring, it supports backup power, optimized solar storage, and simplified installation through the SolarEdge ...

With 10 kilowatt-hours of usable capacity, this 400V battery system stores excess solar energy for use during peak hours or outages, reducing grid dependence and lowering electricity costs. Built for ...

SolarEdge Home Battery 10kWh (UBAT-10K1PS0B-03) -- DC-coupled, 400V storage for SolarEdge Home Hub inverters. 9.7 kWh usable, 5 kW continuous ...
