Supercapacitors are breakthrough energy storage and delivery devices that offer millions of times more capacitance than traditional capacitors. They deliver rapid, reliable bursts of power for hundreds of ...

Supercapacitors & Ultracapacitors are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many supercapacitor and ultracapacitor ...

Superior energy density, high temperature handling capabilities, stable capacitance, and low ESR and ESL make PolyCharge NanoLam(TM) capacitors ideal for wide band gap architectures - with the ability ...

To keep single-use plastics out of landfills, researchers developed a heat-based strategy to upcycle waste PET bottles into high-performance supercapacitor components.

Our polymer capacitors are environmentally friendly, lead-free, halogen free m pound and RoHS compliant.

The authors used these PEDOT structures to fabricate supercapacitors with excellent charge storage capacity and extraordinary cycling stability, reaching nearly 100,000 cycles.

Electric Double Layer Capacitors (EDLC), Supercapacitors are in stock at DigiKey. Order Now! Capacitors ship same day.

Supercapacitors, also known as ultracapacitors or electrochemical capacitors, represent an emerging energy storage technology with the potential to complement or potentially supplant ...

UCLA chemists have created a new type of textured, fur-like PEDOT film with more surface area to store charge and built a supercapacitor with it that stored nearly ten times more ...
