accurate and reliable measurements. Tek-Flux 1400C is used to measure flow rate for various conductive liquids. This Inline battery-powered magmeter is specially designed for applications ...

This Inline battery-powered magmeter is specially designed for applications where electricity and power supply availability is unavailable. It provides up to 5 years ...

The battery option provides the mag meter with up to 5 years of battery life, minimizing maintenance and increasing the enhanced measurements" productivity in field instruments.

This Inline battery-powered magmeter is specially designed for applications where electricity and power supply availability is unavailable. It provides up to 5 years of battery life, minimizing maintenance and ...

Our Utility Electromagnetic Flow Meter is widely used for Potable Water applications and is available as a Line or Battery Powered Electromagnetic Flow ...

The Tek-Flux 1400C Utility Electromagnetic Flow Meter is available as Line or Battery powered and is NSF approved, allowing for use in potable (drinking) water applications.

Battery Powered Device. Meters batching and blending totalization. Self-diagnostic functions. High turndown ratio up to 100:1. A backlight LCD with menu setting control and password protection. ...

It has several power options: AC power, DC power, or battery power. The battery option provides the mag meter with up to 5 years of battery life, minimizing maintenance and increasing the enhanced ...
