To track the serial numbers, the physical panels need to be checked, as SunPower panels have a serial number printed on a label, typically found on the back of the panel.

The serial number is your Site ID - a 7 digit number sequence - which can be found on the SolarEdge app, under the Site Details menu item. See the following ...

As already mentioned, the serial number of a solar panel (photovoltaic module) uniquely identifies it from all the other solar panels. There can be no doubt about which panel is referred to ...

Most manufacturers display this critical information: A weather-resistant label on the panel's rear frame (usually near junction boxes) Serial number etched into the aluminum frame (grab a flashlight!) ...

Worried about fake or duplicate solar panels? ? In this video, we explain step-by-step how to verify your solar panel's serial number using official brand websites so you can make...

The serial number is the unique identifier of each PV module. A protected copy of the barcode is located on the front top-left corner under the glass and cannot be removed or damaged.

Please capture clearly readable/legible photos of serial numbers for every panel used in an installation from the labels on the module itself. These should be ...

Module Authenticity You can find the product serial number on the module front top or the side of the module frame as shown in the figure.

Enter the module's Serial Number (SN) - a 24-digit code. It can be found in one of the corners on the front side of the module, and also in the center of the rear ...
