BoxPower's hybrid microgrid technology combines solar, battery, and backup power into a modular platform designed for remote and resilient energy.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and ...

The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, ...

Solar-powered drones and unmanned aerial vehicles (UAVs) have emerged as a groundbreaking technological ...

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks ...

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer ...

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings ...
